Jars, waste disposal

PET, transparent with red PP lid

Dispo jars, often referred to as sweet jars. Ideal for collecting and disposing of waste, such as loops, cotton wool, wipes and other small hazardous waste in every day microbiology or pathology procedures. Also suitable for a wide range of other applications.

- Small, square jars with a fold-away carrying handle, large circular jars without a carrying handle
- Food grade quality
- Available with or without 'Biohazard' label
- High clarity polyethylene is ideal to Autoclave, causing the container to collapse around the waste material and ultimately minimising the space taken for final safe disposal.
