

Liquid Handling - Manual

Liquipette™

Manufactured from Low Density Polyethylene, the Liquipette™ comes in a range of sizes and packaging options. 1ml (P511) and 3ml (P503) graduated versions are still the most popular amongst our UK customers. Our sterile packs are now very popular available in single wraps, 10 and 20 pack sizes. If you need a specific sterile pack size, ask us for details.
