

## Funnels with short stem RSG Solingen

### Stainless steel

Smooth internal walls. Robust and strong. Multipurpose funnel for a wide variety of uses. Suspension eye for easy storage.

- Good chemical resistance, extremely high thermal resistance
- With air duct for discharging container air
- Autoclavable

## Funnels, powder DURAN Group

### DURAN®, borosilicate glass or soda-lime glass

With smooth internal walls. For transferring powdery materials. Can also be used for liquids. Funnel lip is ground and fire-polished.

- Good chemical and physical properties
- Use in applications that do not involve high thermal stresses (soda-lime glass) or require good thermal resistance (DURAN® borosilicate glass)
- Quick and easy to clean

## Funnels, powder

### PYREX®, borosilicate glass

Ideal for transferring powders, can also be used for liquids.

- Chemically resistant glass
- Minimal thermal expansion, giving relatively high resistance to temperature changes
- Quick and easy to clean
