

Bino and trinocular microscopes, VisiScope®, 300 series

These microscopes can be used in advanced biology teaching. The series includes six models featuring achromatic, plan achromatic and infinity corrected plan achromatic objectives.

- P-LED source: Brightness is fully adjustable
- Abbe condenser with iris diaphragm and graduated NA scale
- Model TL384-M (630-1939): Brightfield for metallurgical analysis
- Interpupillary distance control: 55 - 75 mm with dioptric compensation
- Modern and ergonomic stand, adjustable focusing tension and limit stop

Model	BL384-P	TL384-P	BL384-PI	TL384-PI	BL384-PH	TL384-PH	TL384-POL	TL384-M
Type	Binocular	Trinocular	Binocular	Trinocular	Binocular		Trinocular	
Contrasting technique	Brightfield				Brightfield and phase contrast		Brightfield and polarisation	Brightfield
Head	30° inclined, 360° rotating							
Eyepieces	WF 10x/20							
Nosepiece	Quintuple, reversed							
Objectives	Plan achromatic 4x, Ph 10x, 40x, 100x (oil immersion)	IOS plan-achromatic 4x, 10x, 40x, 100x (immersion oil)			Plan-achromatic 4x, 10x, 40xPh, 100xPh (immersion oil)		IOS plan-achromatic (strain-free) 4x, 10x, 40x, 60x	IOS plan-achromatic 4x, 10x, 20x, 50x (no cover slide)
Focusing system	Coaxial coarse and fine knobs							
Stage	Mechanical, 160x140 mm				Mechanical, 216x150 mm, X/Y movement 78x54 mm			
Condenser	Abbe N.A. 1,25							
Illumination	P-LED
