

## High capacity syringes, BD Plastipak™

**Sterile, disposable, three-piece, PP barrel and piston, latex-free stopper, without needles**

Available with Luer slip, Luer lock or catheter tip. Catheter tip allows attachment of a probe or other tubing. For 100 ml syringes, catheter tip can be changed into Luer tip via an adapter. 50 ml syringes are particularly suitable for automatic infusion equipment (syringe-drivers, pumps, etc.) and are approved for use with the leading brands of syringe-drivers.

- Transparent body for accuracy and safety of use
- Leak-tight, even under high pressure (locking facility on BD Luer lock syringes), gradual and controlled movement of piston
- Sterilised by ethylene oxide

Division: 1 ml

**Packaging:** Individually packed in blister film and medical grade paper.

Description	Capacity (ml)	Pk	Cat. No.
Luer slip, eccentric	20	120	613-3921
Luer lock, concentric	20	120	613-3922
Luer lock, concentric, perfusion	50	50	613-3910
Luer lock, concentric	50	60	613-3925
Luer slip, eccentric	50	60	613-3926
Catheter tip	50	60	613-1124
Catheter tip with Luer adapter	100	25	613-3920

## Syringes, 3-piece, BD Plastipak™

**Sterile, disposable, three-piece, PP barrel and piston, latex-free stopper**

Luer slip or Luer lock syringes available with or without needle. Pre-assembled syringes plus needles in a single pack simplifies injections by reducing the number of procedures and thereby reduces costs.

- Clear barrel for perfect visibility of syringe contents
- Special silicone lubrication ensures that plunger moves smoothly and evenly
- Sterilised by ethylene oxide

**Packaging:** Individually packed in blister film and medical grade paper.
