SHAKERS-VORTEX SHAKERS

Shaker, vortex mixer

- 5 mm orbital vibration
- Vortexing speeds of 0 – 2500 rpm
- Speed setting dial for infinitely variable speeds

This vortex shaker combines state of the art electronics with design and comfort. Simply start the vortexing action by pressing down on the holder or platform. The

switch allows you to choose between pulse or continuous action. The heavy casing protects for splashes, while the round foot knobs ensure a sure positioning on the lab top and prevent "walking".

Included in the delivery is a small platform for tubes to 20 mm Ø. A large platform for flasks up to 50 ml is optionally available (see accessories).
