Dissection Instrument Price List 2013-14.

The R & L Slaughter Ltd. range of dissection instruments listed in this publication are made from stainless steel (unless otherwise stated) and can be sterilised by autoclaving and cleaned in most biological cleaners without degradation.

Order on-line at www.slaughter.co.uk

R & L Slaughter Ltd is the major independent laboratory equipment supplier in the south east of England. Our business has been built on excellent customer service over the last 50 years combined with a strong group of supplier partners including Sterilin (part of Thermo) and VWR.

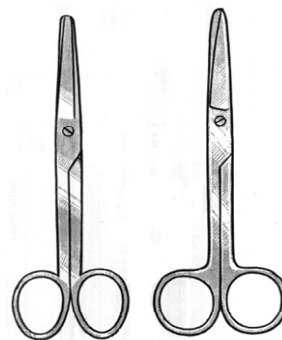

R & L Slaughter Ltd. have been accredited to ISO 9001:2008.

Our instruments are manufactured from stainless steel, except where stated otherwise.

LONG REACH JAW FORCEPS

The long reach forceps are for any application requiring long reach and narrow jaws eg. withdrawing samples from tubes of internal diameter of 15mm and a length of 50mm or moving PCB jumpers.

GS-TRF LONG REACH FORCEPS, stainless steel, with long jaws and serrated tips, overall length 150mm; width at grip 13mm; tips 50 x 5mm. £1.50

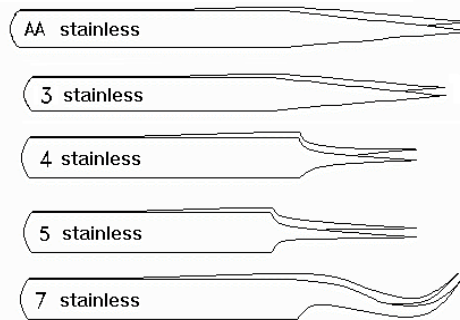

WATCHMAKERS' FORCEPS

Watchmakers' forceps have been developed in Switzerland to enable the handling of minute mechanical parts associated with watchmaking. This fineness and strength has applications in other fields including the biological sciences and micro-electronics.

We offer three quality ranges:-

- * Swiss Precision forceps of anti-magnetic stainless steel.
- * A Standard range, also anti-magnetic stainless steel.

The most popular styles are listed here, but others are available to order.
