

Extraction thimbles Whatman (GE Healthcare)

High quality cellulose

Made from high quality alpha cellulose with high mechanical resistance and high retention capability.

I-Ø×H (mm)	Thickness (mm)	Pk	Cat. No.
Single thickness extraction thimbles			
10×50	1	25	734-2500
18×55	1	25	734-2501
19×90	1	25	734-2502
22×65	1	25	734-2578

60×180	1	25	734-2519

Extraction thimbles Whatman (GE Healthcare)

Type 603 g, borosilicate glass microfibre

Manufactured from 100% pure borosilicate glass with inorganic binder.

- For temperatures up to +500 °C
