

Carbon Reduction Plan

Supplier name

R & L Slaughter

Publication date

September 2026

Commitment to achieving net zero

R & L Slaughter is committed to achieving net zero emissions by 2050 aligned to the UK Government net zero target.

Baseline emissions footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline year: 1 Apr 2025 – 31 Mar 2026

Additional details relating to the baseline emissions calculations:

Our baseline Scope 1 and 2 emissions have been calculated with the Small Business Carbon Calculator provided by SME Climate Hub. The data is based on 2025 emissions factors.

Baseline year emissions:

Emissions	Total (tCO ₂ e)
Scope 1	54.73
Scope 2	7.42
Scope 3 (included sources)	Not currently reporting
Total emissions	62.15

Current emissions reporting

Reporting year: N/A

Emissions	TOTAL (tCO ₂ e)
Scope 1	XX
Scope 2	XX
Scope 3 (included sources)	XX
Total emissions	XX

Emissions reduction targets

In order to continue our progress to achieving net zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 54tCO₂e by 2031. This is a reduction of 13%.

Carbon reduction projects

Completed carbon reduction initiatives

The following environmental management measures and projects have been completed or implemented since the 2026 baseline. We can not currently show the emissions reductions based on completed initiatives, but we have implemented the following:

- Replaced all light bulbs with LED lighting for improved efficiency
- Switched two company cars to electric

Future carbon reduction initiatives

In the future we hope to implement further measures such as:

- Investment in electric fleet
- Source renewable electricity through switching to a green tariff
- Measure and report Scope 3 emissions for relevant categories

Declaration and sign off

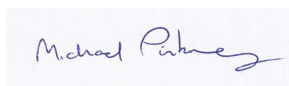

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹³ and uses the appropriate government emission conversion factors for greenhouse gas company reporting.¹⁴

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements (where required), and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.¹⁵

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the supplier:
