

Dropping bottles
DURAN Group

Soda-lime glass, clear or amber

Amber to protect light-sensitive substances.

- Good chemical and physical properties
- For use in applications that do not involve high thermal stresses
- Replaceable NS glass pipette with rubber suction bulb

Capacity (ml)	Height (mm)	Type	Pk	Cat. No.
50	79	Clear glass	1	215-6211
50	79	Amber glass	1	215-6221
100	105	Clear glass	1	215-6212
100	105	Amber glass	1	215-6222

Dropping bottles, Polystop®

Soda-lime glass, clear

- With three part poly stopper consisting of a strong glass pipette, a plastic pipette filler and a PP-NS stopper
- Good temperature resistance, good chemical resistance
- All individual parts are optionally available

Capacity (ml)	Pk	Cat. No.
30	1	215-1080
50	1	215-1082
100	1	215-1083

Dropping bottles, Polystop®

Soda-lime glass, amber

Amber to protect light-sensitive substances.

- With three part poly stopper consisting of a strong glass pipette, a plastic pipette filler and a PP-NS stopper
- Good temperature resistance, good chemical resistance
- All individual parts are optionally available

Capacity (ml)	Pk	Cat. No.
60	1	215-1081

Dropper bottles with pivot nozzle closure, Azlon®
SciLabware

LDPE, translucent

Nozzle retracts into the cap to seal the bottle. Suitable for use as a dropping or wash bottle and excellent for dispensing gels.

- Good chemical resistance
- Heat resistant up to +80 °C
- Easy handling

Capacity (ml)	Height (mm)	Ø ext. (mm)	Pk	Cat. No.
