

# Ramboldi™ Primary Urine Collection Tubes

These 16 x 100mm round bottom tubes fit directly into the analyser racks for immediate analysis. The tubes are supplied with a collection cup for the patient's comfort during sample collection and for them to easily transfer the sample to the tube.

Manufactured from virgin polystyrene the tubes have a capacity of 11mL and are fitted with a leak proof screw cap for ease of transportation and storage of the sample. The tubes are suitable for use with all major automated urinalysis systems.
