

Weighing paper, Grade 531

For weighing of a range of substances (viscous products, powders, paste and liquids).

Size (mm)	Weight	Thickness (mm)	Pk	Cat. No.
100x100	45 g/m ²	0,06	250	516-0318

Kjeldahl weighing paper
Whatman (GE Healthcare)

Parchment paper Grade B-2, ≤0,05% N

- Transparent and smooth
- Simplifies sample transfer
- Quantitative transfer from paper

Weight 43 g/m²

Thickness 0,04 mm

Size (mm)	Pk	Cat. No.
305x305	500	512-0601
76x76	500	512-0602
102x102	500	512-0603
152x152	500	512-0604

Weighing papers
Whatman (GE Healthcare)

Pergamyne

- Transparent and smooth
- Simple weighing out of a wide range of different samples
- Quantitative transfer from paper

Size (mm)	Weight	Pk	Cat. No.
150x150	40 g/m ²	500	515-8214
100x100	40 g/m ²	500	515-8212

Disposable micro-weighing dishes

Aluminium

These micro-weighing boats are compatible with most commercially available analysers and microbalances, and are packaged in easy to use plastic containers for storage and dispensing.
