

Pipette Controller, PIPETBOY acu

INTEGRA Biosciences

For pipettes from 0.1 to 50 ml

- Light, self-contained
- Powerful suction action controlled using milled screw and easy meniscus adjustment
- Sterile filter for better protection from contamination and greater safety
- Autoclavable pipette mounting sleeve ensures pipette is securely held
- Easy identification of the right controller thanks to colour-coding

Ordering Information: Pipette controllers supplied with a rechargeable 9 V NiMH battery, wall holder, adapter and 0.45 µm sterile filter.
