

Adapters, distilling heads Lenz

DURAN®, borosilicate glass

Includes a socket for a distillation thermometer of 55 mm fitted length and two cones at an angle of 75°.

- Very good chemical resistance
- High temperature resistance
- Minimal thermal expansion, giving relatively high resistance to temperature changes

Adapters, still heads

PYREX®, borosilicate glass

Used in distillation assemblies for connecting flasks to condenser. Upper socket designed to accept thermometer either via cone/screw thread adapter or thermometer pocket.

- Very good chemical resistance
- High temperature resistance
- Minimal thermal expansion, giving relatively high resistance to temperature changes
