

Wash Bottles, Safety

HDPE

Wide neck, safety wash bottles with screw cap.

- Printed with hazard safety symbol for the relevant solvent
- Solvent names in English, French and German
- Leak-proof, colour-coded closure

Capacity (ml)	Type	Colour code	Pk	Cat. No.
250	Acetone	red	1	215-3330
500	Acetone	red	1	215-3335
250	Ethanol	green	1	215-3331
500	Ethanol	green	1	215-3336
250	Isopropanol	yellow	1	215-3332
500	Isopropanol	yellow	1	215-3337
250	Methanol	orange	1	215-3333
500	Methanol	orange	1	215-3338
250	Water, distilled	blue	1	215-3334
500	Water, distilled	blue	1	215-3339

Safety Wash Bottles, Wide Mouth with Inscription

Nalgene®

HDPE, fluorinated with PP spray cap

Fluorinated bottles provide better diffusion block and reduce absorption and permeation of solvents. The fluorination increases the shelf-life of the bottles and reduces material loss through permeation. With hazard symbols and descriptions of hazards as required by the Hazardous Substance Regulation.

- Good chemical resistance, heat resistant up to 80 °C (up to 90 °C for brief periods)
- Non-metallic vent valve keeps contents in the bottle, leakproof
- Colour-coded contents label in the colour of the spray cap with the name of the chemical, the chemical formula according to the ICS and the CAS number

Type	Capacity (ml)	Pk	Cat. No.
Chloroform	500	5	215-0992
Hexane	500	5	215-0993
Methylene chloride	500	5	215-0994
Toluene	500	5	215-0995
Xylene	500	5	215-0996
