

# Centrifugation

## Microcentrifuge Tubes with Attached Cap

Elkay Microcentrifuge Tubes are designed to withstand rigorous laboratory applications.

- Positive Snap-Seal closures for leak-tite seals.
- Flat, needle-pierceable tops allow easy sample removal.
- Graduation lines for volume estimation at a glance.
- Metal Free 1.5ml and 1.9ml tubes available for trace metal analysis.
- Polypropylene tubes can be autoclaved at 121 °C
- DNase / RNase free microtubes made from 'low adhesion' resin.
- **NEW** 1.5ml tube with boilproof cap.

**1.5ml Version**

**NEW!**
