Microcentrifuge tubes, Snaplock, Axygen

Corning

High quality PP, graduated, autoclavable

Microtubes made from PP homopolymer for excellent sample visibility. Available in an ultra-transparent (MaxyClear) version or in assorted colours, with frosted writing area.

- Flat snaplock cap makes labelling easier, an area of 0.28 mm diameter can be perforated to minimise the risk of opening at high temperatures
- Maxymum Recovery™ microtubes with ultra-smooth surfaces prevent adhesion of proteins and nucleic acids after long periods of storage
- Certified free from RNase, DNase and endotoxins

Packaging: Supplied in bulk, in resealable plastic bags.

2.0	MaxyClear Boil-Proof	500	525-0228
	MaxyClear Boil-Proof Maxymum Recovery®	250	525-0232

Microcentrifuge tubes

Porex

PP, autoclavable

- Secure, leakproof seals
- Non sterile tubes are certified RNase and DNase free
- Sterile tubes are certified RNase, DNase, ATP, DNA and pyrogen free

Packaging: Bulk.
