

Micro pipettes, minicaps®, according to Delbrück  
Hirschmann Laborgeräte

DURAN®, borosilicate glass, sodium-heparinised, disposable

- Conformity certified
- End to end: contains the stated volume when filled from one end to the other
- Safe packaging for protection during transportation

DIN ISO 7550, IVD 98/79 EC

Accuracy: 0,5%

Reproducibility: 1%

**Packaging:** 100 micro pipettes are packed in a glass vial with colour-coded dispenser cap, 10 of these vials are packed into a stable carton box.

| Capacity (µl) | Length (mm) | Pk    | Cat. No. |
|---------------|-------------|-------|----------|
| 20            | 30          | 1.000 | 612-2449 |
| 40            | 30          | 1.000 | 612-2451 |
| 50            | 30          | 1.000 | 612-2453 |

Micro pipettes, disposable, Microcaps®

For fast, safe, clean transfer of liquids in micro quantities. Suitable for both general and hazardous microchemical applications.

Micro pipettes are precision-bore glass capillary tubes cut to predetermined lengths so that fill volumes are constant and precise. Capillary action draws the fluid into the tube and a squeeze of the bulb dispenses it with accuracy of ±1%.

**Ordering information:** Delivery includes 100 pipettes and one bulb dispenser.

| Capacity (µl) | Length (mm) | Pk  | Cat. No. |
|---------------|-------------|-----|----------|
| 0,25          | 32          | 100 | 612-4858 |
| 0,5           | 64          | 100 | 612-4859 |
| 1             | 32          | 100 | 612-4860 |
| 5             | 32          | 100 | 612-4861 |
| 10            | 41          | 100 | 612-4862 |
| 15            | 54          | 100 | 612-4863 |
| 30            | 78          | 100 | 612-4864 |

| Type           | Pk | Cat. No. |
