Red, 37.5ml, sterile, single wrapped, 500-5000µl	1	613-4827	133.00L

Pipettes, Finnpiptette® Focus

- Patented soft touch tip ejection
- Advanced super blow out performance
- Offers in-lab recalibration
- Fully autoclavable
- Three year warranty

The Focus range features a new 'fast dial' system with 0.01µl fine volume adjustment on micro-volumes and 0.05µl on larger volumes. The shorter tip cones allow easier and more accurate pipetting into microplates and with its ergonomometrically designed handle, the Focus minimises hand and arm stress.

Range/colour	Vol. µl	Accur-acy (%)	CV %	Finntip used	Cat. No.	£
