

Stirring Shafts and Blades

PTFE. Interchangeable stirring shafts and blades, please order shafts and blades separately.

Stirring shafts

Length (mm)	Ø (mm)	Pk	Cat. No.
400	6	1	441-9551
500	6	1	441-9552
550	9,5	1	441-9553
650	9,5	1	441-9554

Stirrer blades, rounded ends

Width (mm)	Depth (mm)	Height (mm)	Pk	Cat. No.
52	3	14	1	441-9561
76	3	19	1	441-9562
90	3	28	1	441-9563

Overhead Stirrer Tools, 3-Bladed Stirrers

IKA

Made from stainless steel, except 441-2125, which is PTFE coated. Draw the material to be mixed from the top of the vessel to the bottom. Minimal shearing forces.

- Ideal for stirring liquids at medium to high speeds

Description	Stirrer - Ø (mm)	Shaft - Ø (mm)	Shaft length (mm)	Max. revolutions (min ⁻¹)	Pk	Cat. No.
3 Blade stirrer	45	8	350	2000	1	441-2911
	55	8	350	2000	1	441-2912
	140	10	550	800	1	441-2913
	140	10	800	400	1	441-2914
3 Blade stirrer (PTFE)	75	8	350	800	1	441-2125

Overhead Stirrer Tools, Propeller-type Impellers

Heidolph

Made from stainless steel.

- For suspensions and homogenisation
- Ideal for stirring liquids with medium to high viscosity
- Create axial flow

Description	Stirrer - Ø (mm)	Shaft - Ø (mm)	Shaft length (mm)	Max. revolutions (min ⁻¹)	Pk	Cat. No.
Propeller stirrer, 3-bladed	58	8	400	2000	1	441-1229
	33	8	400	2000	1	441-1230
Propeller stirrer, 3-bladed, ringed	45	8	400	2000	1	441-1231
	66	8	400	2000	1	441-1232
