

Measuring Beaker with Handle

Azlon

PP, highly translucent

Ideal for general laboratory use and a wide variety of other applications. Clear moulded graduations. Ergonomically designed handle with thumb grip for easy carrying.

- Good chemical resistance
- Resistant to heat up to 121 °C
- Smooth surfaces for easy, fast cleaning

Division		Ø ext. (mm)	Height (mm)	Pk	Cat. No.
Capacity (ml)	(ml)				
50	10	50	60	5	213-0152
100	20	61	72	5	213-0153
250	50	90	100	1	213-0154
500	50	102	120	1	213-0155
1000	100	122	150	1	213-0156
2000	100	151	187	1	213-0157
3000	200	172	215	1	213-0158
5000	500	199	253	1	213-0159

Jugs, Measuring

Azlon

PP, highly translucent with blue graduations

- Robust jugs with crisp blue graduations
- Autoclavable at 121 °C, durable with good chemical resistance
- Ergonomically designed handle with thumb grip for easy carrying

Division					
Capacity (ml)	(ml)	Ø ext. (mm)	Height (mm)	Pk	Cat. No.

Measuring Beakers with Handle

Nalgene®

213-7152

213-7162

HDPE, translucent

Dual graduations in ml and oz. Square handle for easy carrying and pouring. Extra strong wall for safer handling of acids, bases and other solutions.

- Good chemical resistance
- Good thermal resistance
- Designed for rough handling

PMP (TPX), crystal clear

Dual graduations in ml and oz. Square handle for easy carrying and pouring. Extra strong wall. Transparent to microwaves.

- Exceptional chemical resistance
- Heat resistant up to 150 °C (briefly to 175 °C)
- Autoclavable

Material	Capacity (ml)	Pk	Cat. No.
